Dear Waldoch Owner,

Congratulations on your new Waldoch Luxury Van! Since 1974, the Waldoch Crafts team has been converting vehicles from mere modes of transportation to places of comfort and recreation. We hope you and your family will spend many hours enjoying the advantages of Waldoch travel.

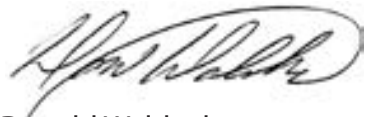

To be sure that you receive the full benefits of each feature included in your Waldoch Luxury Van, please read the following owner's manuals carefully. The easy-to-read instructions will explain the proper operation of each convenient Waldoch feature. Safety tips will help you take the necessary precautions to keep your family and passengers safe and sound. Cleaning and maintenance tips will ensure that your Waldoch will continue to attract envious attention for many years to come.

This manual is meant to supplement the owner's manuals provided by the chassis manufacturer and the various accessory manufacturers of your conversion vehicle's components. Please take time to read through all the literature included with your Waldoch.

We appreciate your confidence in selecting a Waldoch Luxury Van. Through the years, Waldoch has put the fun into family traveling with quality workmanship and innovative design features. We hope you enjoy your van for years to come, as thousands of satisfied customers all over the country already do.

If you have any questions or would like additional information about your Waldoch, please call us at 1-800-328-9259 or visit our website at [www.waldoch.com](http://www.waldoch.com) . We'll be happy to provide any assistance or information you need.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Donald Waldoch', enclosed within a faint, hand-drawn oval.

Donald Waldoch  
*President*

# Introduction

All information and specifications in this owner's manual are current at the time of printing. However, due to Waldoch Vans continued commitment to product development, we reserve the right to make changes at any time without notice or obligation.

If you have any questions about your van after reading through this manual, please contact the dealer from whom you purchased the van. Should you still have questions, you may call the Waldoch Vans Customer Service Department at 1-800-328-9259.

This owners manual explains the equipment available on Waldoch's conversion vans —some items contained in this manual are optional and may not be installed in your vehicle. Such optional equipment is marked with an asterisk (\*). Many of these items can be installed after you have purchased your van. Please contact your dealer for additional information.

Happy Traveling!

# Limited Warranty:

## Van Conversions

Waldoch Crafts, Inc. warrants to the original retail buyer all items that it adds to an automotive van or light truck chassis as part of its conversion package (unless classified below as not covered), to be free from defects in materials used and workmanship rendered for a period of thirty-six (36) months from date of initial sale to retail buyer (unless further limited - see below) or thirty-six thousand (36,000) miles, whichever comes first.

**1. Warrantor:** This warranty is granted by the Waldoch Crafts, Inc. (Waldoch), 13821 Lake Drive, NE Forest Lake, MN 55025

**2. Parties to Whom Warranty is Granted:** Provided the van conversion is used solely for personal, family or household purposes, this warranty is granted to any original buyer only, and is not transferable. This warranty does not apply to a commercial buyer who uses the van conversion for purposes other than for resale or to a buyer who uses the van conversion in the ordinary course of the buyer's business.

**3. Parts Covered:** Include components, seats, interior lights, trim, and windows that have been installed by Waldoch Crafts, Inc.

**4. Wood Parts Partially Covered:** This warranty does not cover slight color variations which occur in natural wood products, nor does it cover color variations due to natural aging process of wood over time.

**5. Items Not Covered:** Any and all parts supplied with the van chassis by the Original Chassis Manufacturer are not covered by Waldoch, including (but not limited to): Engine, and all component parts, frame, steering mechanism, axles, brakes, heater, transmission, air conditioner, suspensions, drive train, tires, and batteries. Any defect occurring or reported after the warranty term expires, or which is reported to Waldoch or an Waldoch service center more that thirty (30) days after is or should have been discovered, is not covered. For more information, consult the chassis manufacturers warranty. Specifically, Waldoch is not responsible for any irregularities in, or which are caused by the original factory finish applied by the chassis manufacturer.

Cosmetic or surface defacing and/or corrosion (resulting from stone chips or scratches in paint, for example) is not included in warranty coverage. There is no warranty coverage for damage caused by airborne fallout (such as chemicals, tree sap, stones and hail). No conversion or vehicle which has been customized, altered, or to which any additional has been made in any manner after it has left Waldoch, other than authorized in writing by Waldoch, will be warranted by Waldoch.

**6. Production Changes:** Waldoch reserves the right to make changes in the passenger vans it manufactures or sells at any time. Waldoch has no obligation to make the same or similar changes on any van conversion it previously manufactured or sold, and Waldoch has no obligation to conform any conversion to the features shown in any Waldoch brochure or advertisement.

**7. Remedy:** If at any time during the applicable warranty period, any of Waldoch's conversion is faulty or defective, Waldoch shall, at its option, repair or replace the defective part. Waldoch shall supply parts and labor required to complete the necessary repairs, but Waldoch is not responsible for transportation costs related to the repair. The exclusion includes (but is no limited) to rental or replacement expenses. Waldoch does not assume responsibility for list time, loss of use of the vehicle, towing or any travel or transportation expenses incurred as a result of any conversion problems, whether or not covered under this warranty. The remedy and liability for any express or implied breach of warranty set forth in this section in the exclusive and sole remedy and the limit of liability for any such breach.

**8. Procedure for Obtaining Remedy Performance Under Warranty:** Owner must provide prompt notification to any Waldoch service center, or to Waldoch at the address in Section 1. Notification SHALL, under any and all circumstances, be made to Waldoch or an Waldoch service center, within thirty (30) days after a defect is or should have been discovered, or Waldoch's warranty will not apply. Owner shall then, at the direction of Waldoch or the authorized Waldoch service center, return the defective part or the vehicle to any authorized Waldoch service center. Should Waldoch deem repair or replacement by an Waldoch service center impractical, owner shall then return the defective part or vehicle to the Waldoch factory. Transportation costs incurred for delivery of the van to and from the Waldoch service center or factory shall be the responsibility of the owner.

Owner agrees to let Waldoch Crafts, Inc. or its designated representative inspect the subject conversion van to ensure that the alleged defective part was supplied by the Waldoch Crafts, Inc. or that the alleged impairing condition has resulted from a component part supplied by the Waldoch Crafts, Inc.

Owner agrees to let Waldoch or its designated representative inspect the subject conversion van at reasonable times to determine whether a defect in its conversion exist and, if so, the proper remedy for it.

**9. Customizing/Alterations:** Waldoch warrants its conversion vans to Waldoch's specifications, as amended from time to time. ANY CUSTOMIZING, ALTERATION, OR ADDITION TO A CONVERSION OR THE VEHICLE MADE AFTER IT LEAVES WALDOCH (UNLESS APPROVED IN WRITING BY WALDOCH) WILL VOID WALDOCH'S WARRANTY. The buyer also understands that neither Waldoch nor its authorized dealers will customize any of its conversion vans except within the standard design developed by Waldoch.

**10. Optional Upgrade Wheels:** The buyer understands that Waldoch warrants only the optional upgrade wheels. The buyer understands that the original chassis manufacturer provides a warranty for any of its parts or their components.

**11. Reporting Safety defects to the United States Government:** If you believe that your vehicle has a safety defect, you should inform the National Highway Traffic Safety Administration (NHTSA), in addition to notifying Waldoch. If NHTSA receives similar complaints, it may open an investigation, and if it finds that a safety defect exist in a group of vehicles, it may order a recall or remedy campaign. However, NHTSA cannot become involved in individual problems between you, your dealer, or Waldoch. To contact NHTSA, you may either call the Auto Safety Hot-line toll free at 1-800-424-9393 (Washington, D.C. are residents may call 366-0123) or write to NHTSA, U.S. Department of Transportation, 400 Seventh Street, Washington D.C. 20590. You can obtain other information about motor vehicle safety from the hot line.

**12. Exclusion and Limitation of Implied Warranties:** This warranty does not apply to any defect incurred due to the negligence of others, failure to maintain or operate the product in the manner described by the set of instructions furnished with each product, unreasonable use, accidents, alterations, or ordinary deterioration.

**ALL EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR OTHERWISE. IF ANY IMPLIED WARRANTIES ARISE UNDER STATE LAW IN CONNECTION WITH THE SALE BY WALDOCH OF ANY NEW VAN CONVERSION, THEY SHALL BE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. WALDOCH SHALL NOT BE RESPONSIBLE FOR ANY INCONVENIENCE, LOSS OF USE OF ANY PRODUCT, LOSS OF TIME, OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER AS A RESULT OF BREACH OF WARRANTY, NEGLIGENCE OR OTHERWISE.**

**NOTE: IN SOME STATES, THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE.**

I have received and read a copy of this Agreement, and I may review it with my attorney before signing. I and anyone making claims on my behalf, or through me, shall submit any and all claims I may have in connection with my conversion vehicle (CV) against any retail dealer, manufacturer, or supplier of component parts, to binding arbitration under the federal Arbitration Act, 9 U.S.C. § 1-14, to the extent permissible under federal law. I agree that if I have a claim relating to my CV, I will allow the dealer and Waldoch Crafts, Inc. to inspect it and make necessary repairs. If my claim is not then satisfied, I will notify WALDOCH and binding arbitration proceedings will be held after I have paid an initial fee of \$125 to the American Arbitration Association and I cannot pursue my claim in court or in any administrative proceeding. Arbitration will be administered by the American Arbitration Association (AAA), pursuant to its Commercial Arbitration Rules, unless and until WALDOCH designates a different administrator, in which event a notice will be mailed to your last known address. If any claim is less than \$10,000, WALDOCH will pay the initiation fee and arbitrator's fees in excess of \$125, and the arbitrator shall not award damages in excess of \$10,000. If my claim exceeds that amount or is not specified, I will pay one half of the fees and costs in excess of \$125. I, the dealer, and WALDOCH will each pay their own cost and expenses in connection with the arbitration hearing. The claim will be heard by a single arbitrator, and will be held thirty (30) days after the claim is filed, unless all parties agree to a later date. The arbitrator shall be selected from a panel named by AAA, pursuant to its rules. The arbitrator shall be permitted only to award actual damages for financial loss, and shall not award damages for personal injury (or mental anguish, or other intangible claims). Statutes of limitation, which would apply to a court proceeding for my claim, will apply to commencement of arbitration proceedings. If I default on any obligation to a lender in connection with my CV, my lender may exercise all of its rights without regard to this Agreement. If I file a claim in court without having first complied with this Agreement, I will be required to pay all fees, cost, and expenses, including attorneys' fees, for dismissal or referral to arbitration. This Agreement will apply to me, my heirs, assigns, and anyone who purchases or leases my CV from me or operates or occupies it with my permission or without objection by me. Nothing in this Agreement enlarges my rights or gives me any rights or claims I would not otherwise have.

FOR INFORMATION ABOUT HOW TO FILE A CLAIM OR ABOUT THE ARBITRATION PROGRAM, CALL WALDOCH AT (651) 464-3215, OR THE AMERICAN ARBITRATION ASSOCIATION AT (800) 778-7879.

# Electrical Panel

Your van is equipped with an Electrical Panel that DOES NOT require fuses. Features of the Electrical Panel include:

- Self-Protecting FETs
- Built-In Programmable Diagnostics
- Rear Sofa Safety Feature (The sofa may only be operated while the vehicle is NOT in motion)
- Entertainment Delay (Games and movies will continue to play for 30-minutes after key is removed from the ignition)
- Wired to Front Overhead Control Panel to control Driving Lights, Indirect Lighting, Entertainment System, Speakers and Auxilliary Power

# Overhead Console

The front overhead console in your van will be equipped with a unique arrangement of switches. This arrangement is determined by the options installed in your van. These switches operate items such as indirect lights, cabinet lights, a rear radio, fog lights and the sunroof.

Below the console switches you will find the Rear Air/Heat Master Switch. This switch must be on AUX for the rear switch to operate. If it is not, only the front switch will operate the unit.

**Note: The sunroof switch is a Touch Switch. DO NOT HOLD THE BUTTON!**

**To Open:**

On the first touch the Sunroof will pop up. The Sunroof will slide open on the second touch.

**To Close:**

The first touch will slide the Sunroof forward. Touch the button again and the sunroof will recess back into the frame.

The Sunroof will automatically close when the key is turned off.

## Driving Lights\*

Some vans are equipped with optional driving lights, wired into a switch in the overhead console. Note that the laws on the use of driving lights vary from state to state. Check the applicable laws in your state.

# TV Monitor Listening\*

Speaker Button

TV Power Button

If your van is equipped with a TV Monitor Sound System, you have two ways to listen. You can listen through the speakers located in the ceiling or through the cordless headphones (option), which are on at all times. This switch turns the overhead speakers on and off.

The TV switch will run for 30 minutes after key is taken out of ignition. This is a feature to keep the entertainment system working while filling for gas

## Rear Entertainment System\*

Speakers in the roof and rear sub in wall if optioned are for the entertainment system only. Does not work with factory radio (Option

## DVD\*

Some vans may be equipped with a DVD player. To operate DVD, TV monitor needs to be switched to Video 1. For further use – follow directions in DVD owners manual supplied in care package.

The ignition switch must be in the "ON" position before using any of these components. Please note the TV reception will be poor when vehicle is in motion. Vehicle motion and variations in electric current may cause the picture to "roll" or produce a "snowy" effect on the picture. For this reason you may want to consider a DVD or Satellite System to provide more satisfying TV entertainment.

Note that the TV Monitor must be set to Channel 3 to operate the DVD or Satellite System. To operate a game console, the TV Monitor must be set to the A/V mode. Refer to the manuals included with your van for more information on these optional accessories.

TV Monitor designed for use with DVD's. It is not intended to view TV.

## **Low Top Monitor/DVD Combo\***

Low top vans (that is, vans that are not equipped with an optional high top) can still be equipped with an LCD screen Flip Down Monitor with built-in DVD player. In such cases, the necessary monitor connections are made between the plate mounted on the back wall behind the fuse block. Waldoch uses various manufacturers of LCD Monitors. Sizes may also vary. Please refer to your Monitor Owner's manual for operating instructions.

# TV in the High Top Van\*

Please refer to the operating instructions supplied in your "Care Package" for the particular electronic component installed in your van.

## Indirect Lighting

Indirect lighting supplies soft, moderate lighting throughout the vans interior. The lights are located in valances, window sills and optional ceiling slats controlled by a switch in the overhead console.

# Apple Computer Package\*

Your High-Top Waldoch Conversion may be equipped with the Apple Package option. In the Apple package, where a TV screen would go, is replaced with an apple computer. The computer is then controlled by a wireless mouse and keyboard. The system will only turn on when the monitor button is pushed on the front overahead control switch. Then the computer will turn on by pressing the button mounted next to the screen. The wirelese mouse and keyboard are powered separately and will need to be turned on as well.

Other options that may be included in your Apple Package are:

- Built-In Mobile Hotspot
- JL Audio Surround Sound System w/Subwoofer
- USB Ports

## Mobile Hotspot

A mobile hotspot allows you to tether your devices (phone, tablet, laptop, etc.) to the Internet Wi-Fi from another device to share an internet connection.

## **Wireless Mouse & Keyboard\***

The wireless mouse and keyboard are located conveniently overhead next to the other storage panels, usually on the passenger side. These battery powered devices need to be turned on before use and turned off to save battery life.

## **Audio Surround Sound System\***

The Audio Surround Sound System is an upgrade from the factory system and includes a subwoofer usually located behind the rear sofa.

## **USB Ports\***

USB Ports allow for more options when charging your various devices while on the go.

## Pleated Shades

Optional pleated shades are installed on some vans. These are adjusted by sliding the shade up or down as desired.

## Hidden Shades\*

Hidden Shades are included as a Platinum Package Option. These are adjusted by pulling the shade up and securing to the hooks mounted at the top edge of the window. This option replaces the standard pleated shades.

If the rear cargo doors have shades, you should keep these in the fully open position when the vehicle is in motion.

## Leather Seating\*

The optional leather seating installed in Waldoch Luxury Vans requires additional care and cleaning. To clean, wipe seat surface with a piece of cheese cloth dampened with lukewarm water and a mild soap (such as Castile or Ivory). Thoroughly rinse the leather with another cloth dampened with clean lukewarm water, and then dry with a soft, dry cloth. Do this often as leather becomes soiled. Applying oil to the finished surface will harm the leather, neither should you use varnish or furniture polish.

# Six-Way & Power Recline Front Seats\*

Optional six-way power and or power recline seats are available on Waldoch Luxury Vans. They are controlled by the switches located on the lower outside section of the seat. The operation of each switch is described in the diagram below.

## Outside of Seat

**Heated Seat Option**  
Turn switch on to warm seats.

The center knob moves the entire seat up, down, forward and back. Move the knob in the direction you want to move the seat. This knob will not affect the seat tilt in any direction.

Pull this switch up to tilt the front of the seat up. Push this switch down to tilt the front of the seat down.

Pull this switch up to tilt the back of the seat up. Push this switch down to tilt the back of the seat down.

**Power Recline Switch**  
Press and hold either directions until seat is reclined in desired position. (Located on Front Seats Only)

Familiarize yourself with these controls, so that you can operate the seat safely while the vehicle is in motion.

If your seat does not move in response to the seat controls above, it is likely that a fuse needs to be checked—see the diagram on page 8.

# Armrests

**Stationary Armrest**

**Self Leveling Armrest**

# Reclining Seat Backs

All vans are equipped with reclining seats. The following diagram illustrates how they are operated.

The seat will recline when the lever at the base of the seat cushion is pulled up.

**The driver's seat should be adjusted before the vehicle is in motion.**

## Headrest

The headrests are adjusted by moving the latch (illustrated below), grasping the headrest and moving it to the desired position.

The driver's headrest should not be adjusted while the vehicle is in motion.

Move lever  
before moving  
the headrest up  
or down.

# Quick Release Seat Pedestal\*

Seats are equipped with quick release pedestals. To remove the seat, simply push down on tab, pull up on lever and slide around until seat pedestal releases. (Shown in illustration below.)

To reinstall align seat on pedestal, push down, pull lever back until lock position.

Note: Seat needs to be in forward position when van is in motion.

# Upper and Lower Child Restraint System

Your van has a child restraint anchoring system in place to insure the proper safety of your child. Your middle seats have upper anchorings points between the seat bottom and back.

Rear anchor for child restraint system located behind sofa.

Your lower seat anchoring is at the back of the pedestal plate.

## Rear Storage Compartment\*

Located in the rear of the van on the passenger side, rear compartment contains the vehicle jack (please refer to chassis owners manual for complete instructions).

Note: On Ford models the vehicle jack is located under the sofa.

## Self Center Fold Down Section\*

Some rear sofas are designed so that the center section of the back folds down.

Grasp the top of center section and fold down.

# Power Sofa\*

This sofa moves from upright position to a fold down position and back by operating the switches located on the passenger rear sidewall behind the sofa.

(This is a hidden couspn sofa pictured) (Power)

Controls to operate sofa position up or down and fore and aft is equipped.

Note: While van is in motion, the sofa should be in full upright position. The sofa must not be in fold down position.

- \* Keys hat to be out of the ignition to operate sofa
- The back of the center section forms a tray like area.
- \* The sofa may also have optional headrest and armrest

**This power sofa should only be operated by an adult.**

# **Wheels\***

## **SERVICE BULLETIN**

Customers purchasing a Waldoch Luxury van equipped with cast alloy wheels must be made aware of the lug nut tightening procedure necessary in the immediate break-in period of the van.

Lug nuts need to be checked and tightened often the first one hundred (100) miles and once again after an additional two-hundred fifty (250) miles. Lug nuts should then be checked every one thousand to fifteen hundred (1,000-1,500) miles.

If the wheels are ever removed for service or tire rotation, the initial lug nut tightening procedure must be gone through again. Failure to follow proper lug nut tightening procedures could result in wheel stud failure and possible loss of wheel.

## **Optional Upgrade Tires\***

The buyer understands that the original tire manufacturer provides a warranty for any implied defects.

Please note that it is normal for the front wheels to accumulate more dust than the rear wheels. This dust is the normal result of wear on the front disc brake pads. Be sure to follow the cleaning direction on page 25.

## **Note on Alloy Wheels\***

If your van is equipped with alloy wheels that have a special coating, clean these wheels only with a soft cloth and warm soapy water—never use a wire brush or other objects that might remove the protective coating on the wheel. Never use any cleaners.

## **Warning!**

Solvent based cleaners will destroy the finish on your polished aluminum wheels. Clean with gentle soap only.

Lug nut adapter provided in customer care package. This is vehicle specific and should be stored in a safe place.

## **Running Board Capacity**

The running board capacity for high top and low top vans is 300lbs.

# Wheel Disclaimer\*

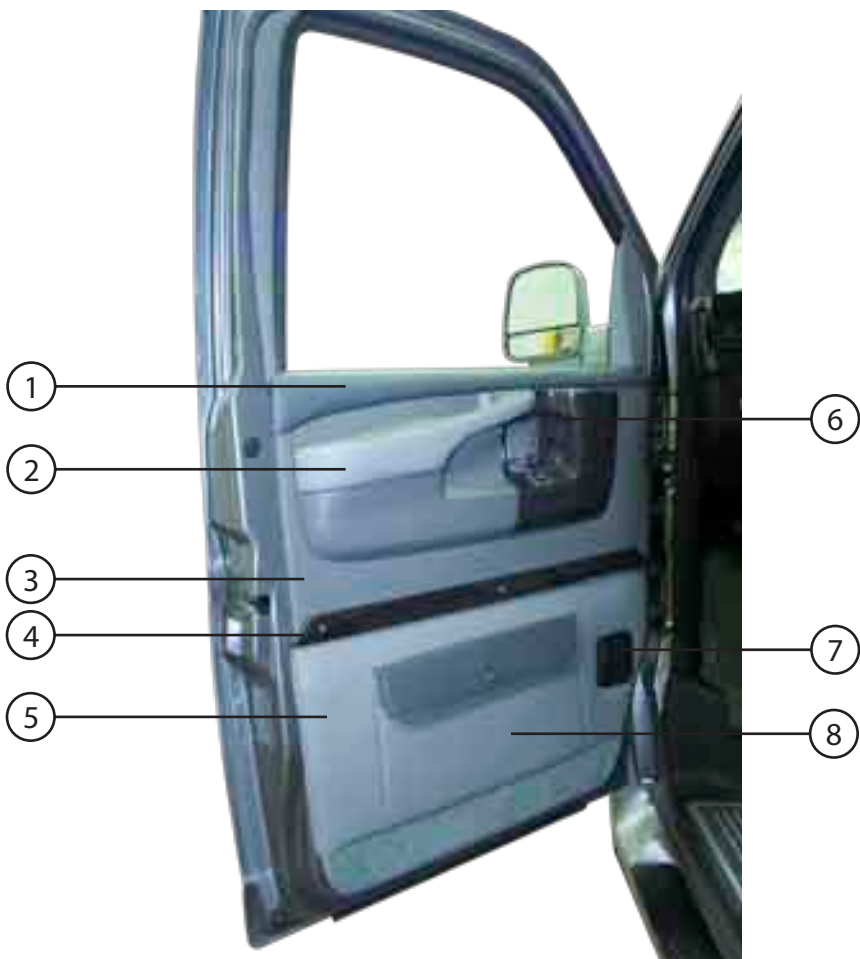

Waldoch has always carried the highest customer satisfaction levels in the custom wheel industry. In order to maintain these levels, the warranties on chrome plated wheels must be understood by the end user. Waldoch must advise all of our dealers to explain the proper care and maintenance of chrome wheels to the end user. All wheels are covered by the manufacturer's specific warranties and guidelines. For specific warranty information, please call your Waldoch sales representative and they will provide this information to you. American Racing Warranty is attached for your review.

We have put together the following information in order to help with all chrome plated warranty issues:

## **Proper care and maintenance**

- All chrome plated wheels should be cleaned with mild soap and water frequently. Wheels must be cool before anything is put on the wheel.
- When possible, chrome plated wheels should not be used in areas where salt and chemicals are used in winter weather. Run other wheels during winter months.
- If chrome wheels are driven in the winter months they should be cleaned every week.
- Chrome sealant is highly recommended for use on chrome wheels that are driven in winter.
- Chrome pitting is not covered by any wheel manufacturer. Chrome pitting is not the same as chrome separation.
- Most manufacturers' warranties only cover the face of the wheel, and not pitting or peeling on the backside of the wheel. Proper attention should be paid to the backside of chrome plated wheels when washing. Wheel caps follow the wheel warranty.

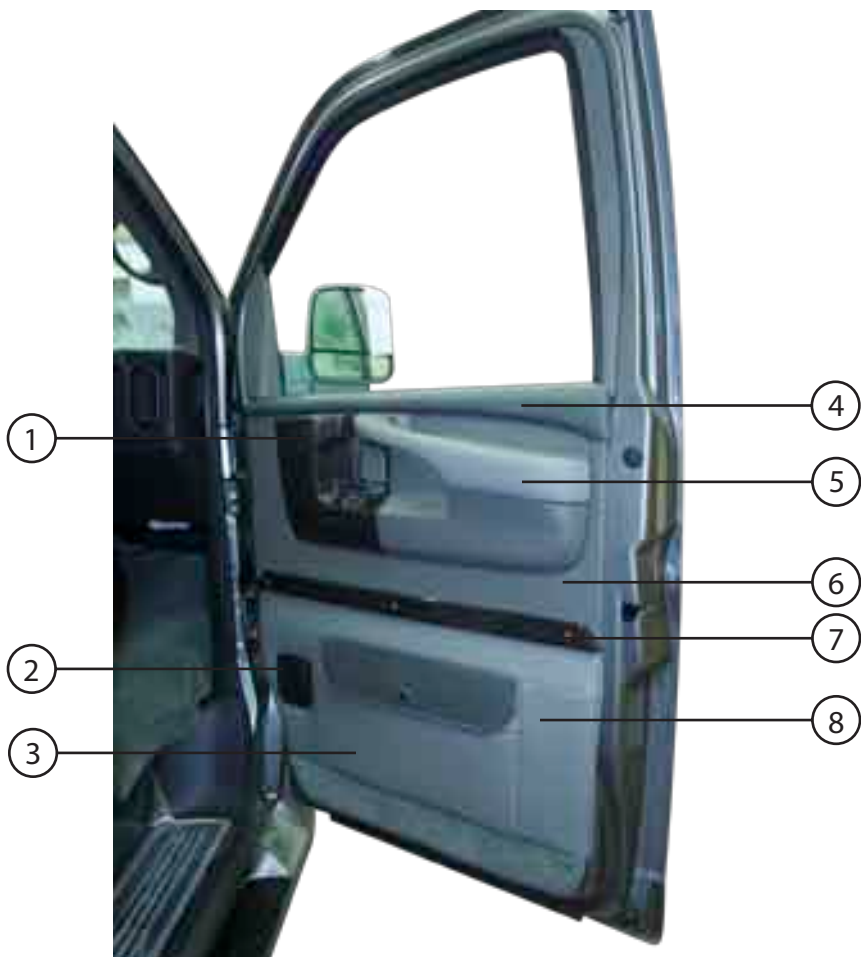

If proper maintenance procedures are not followed, chrome wheels are susceptible to pitting which is not covered under warranty.
